2009 DEALER REQUIREMENTS

An outline of the Dealer requirements for a Stocking Dealer

- -A minimum purchase of four units per county per year. Each additional county can be added to the Dealer's protected territory at two additional units for each county added.
- -Attendance and exhibition at two shows or local fairs per year.
- -Advertising in your local area. Dealer to provide evidence of local advertising, at the request of AHONA™.
- -A functioning fax and answering machine.
- -Completion of the enclosed application questionnaire and purchase agreement with Grow & Bloom™, Inc. DBA Alternative Heating of North America™.
- -All appropriate tax identification and completed resale certificate information, in accordance with State and Federal Tax requirements.
- -A deposit of \$500 is required for the unit minimums dictated by the territory you select.

IE: One County selected would require deposit and purchase of four units. Two counties would be six units- 4 for the first county and 2 for the additional county selected etc.

Payment for the remainder of the order will be required before shipment and invoicing will be completed once all Dealer Questionnaire, Purchase Agreement and tax information is submitted and your territory request approved.

Included in this Dealer Information package are copies of the required Dealer Questionnaire, Purchase Agreement, and NY State Resale Certificate for your review and completion. If you are located in an area outside of New York State, please provide copies of the appropriate tax documentation required for the State(s) in which your business operates.

Also provided are copies of brochures on many of the products we carry, Dealer and Suggested retail pricing perimeters, and pricing on other products we carry to assist our Dealer network with other supplies most consumers will need for installation of the boilers we carry.

Due to the higher fuel costs for a good part of 2008, we enjoyed a very profitable year with sales exceeding all target goals set for sales of our Gasification Boiler Products.

Although the US Economy has experienced an economic turndown, interest in Green Technologies and Alternative Heating Sources help, keep this a viable Industry and business opportunity.
